

# OCEANS 2021 SAN DIEGO EXHIBITS NOW ON SALE

<https://sandiego21.oceansconference.org/>

The OCEANS 2021 San Diego committee invites you to beautiful San Diego to participate in the world's most prestigious, comprehensive, and diverse conference and exposition regarding our most critical resource—the oceans. Coordinated with the kickoff of the United Nations “Decade of Ocean Science (2021-2030), this will be the 8th time the OCEANS conference has come to San Diego, a venue that has consistently provided the largest and most successful OCEANS conferences ever.

OCEANS 2021 San Diego will expand significantly in scope, bringing together key international industry and government stakeholders, focusing on investment plans/strategies during the upcoming five years as well as emerging technologies, new science and research initiatives, and the latest in commercial products.

The theme for OCEANS 2021 San Diego is **“Sustaining our Oceans . . . Sustaining our Future,”** reflecting on the critical nature and importance of our industry and its sustaining technologies. New Technical tracks will include Artificial Intelligence (AI), the great challenge of Data Management, Arctic and Antarctic exploration, and will present emerging technologies for ocean stewardship, food supply production and management, national defense, energy production, and overall management of the oceans and waterways. Assuring a successful conference will be committee members from the highly successful 2013 and 2003 San Diego OCEANS conferences along with new, influential and highly capable technical, academic and business leaders. Your OCEANS committee is working diligently to bring together influential buyers, investors, stakeholders, industry experts, and innovators from government agencies, industry, and academia.

We look forward to welcoming you to San Diego.

Alan Kenny  
Conference Chair

Robert Wernli  
Conference Co-Chair
