SUMMER SCHOOL

6–15 July 2020

Department of Product & Systems Design Engineering

Syros, Greece

Maritime Informatics and Big Data Analytics

MaritimeInformatics2020

summer-schools.aegean.gr
/MaritimeInformatics2020

The first edition of the International Maritime Informatics & Big Data Summer School will provide a number of introductory lectures covering the main topics related to Maritime Informatics. It shall host a diverse multinational group of up to 50 students and a lineup of internationally recognised speakers, during an eight-day programme that will allow participants to gain a deeper knowledge and understanding of maritime informatics. Complementary to the lectures, a number of experiments and demonstrations will take place at sea using state of the art maritime robotic systems.
The goal is to provide a unique multidisciplinary week of learning and doing maritime informatics.
